HIS SPEEDGATE

OUR GATES ARE CE-CERTIFIED!

The Speedgates from HIS Gates comply with all European safety standards and are therefore CE-certified. Speedgates fall under the Machinery Directive MD2006/42EC, NEN-EN13241, and NEN-EN12453, which ensure that all potential hazards are safeguarded. To prevent accidents, our gates meet the highest safety standards and are equipped with the most reliable safety components. The CE certification proves that you have purchased a safe and compliant product.

HOW WE PRODUCE OUR SPEEDGATES

Tailored Service

Sales

Our experienced advisors are happy to visit you to find the perfect solution for your site access or perimeter security.

Production

At HIS Gates, our skilled professionals manufacture all products in our own factory in Sneek.

Delivery

After galvanizing and/or coating, the products are delivered directly to your location.

3 Steps to a Custom Speedgate

1 Choose the dimensions, color, and functionality

Measure the exact dimensions of the area where you want to install the gate. Be sure to measure the length and height accurately.

2 Complete it with accessories

Decide which accessories you'd like to use to control access to your premises. Share your preferences, we'll take care of the rest!

3 Get in touch

Contact us, and one of our advisors will visit you free of obligation.
